Multiplastics (Europe) Limited are committed to operating in a manner that minimises our potential impact on the environment.

We will operate in compliance with all relevant environmental legislation, and we will strive to use pollution prevention and environmental best practices in all we do.

The Company recognises the importance of the environmental impact of the business and will take the following into consideration during all stages of decision making:

- To conduct all activities on site with prevention of pollution as a fundamental goal.
- Prevent adverse impacts of our operations on the environment.
- Continually monitor and improve our impact on the environment.
- Integrate the consideration of environmental concerns and impacts into our decision making and activities.
- The reduction of noise levels below the statutory requirements to cause the least inconvenience to our neighbours.
- Minimise our waste and then reuse, recover or recycle as much of it as is possible.
- Minimise energy and water use within our buildings and processes in order to conserve supplies and minimise the consumption of natural resources.
- As far as is possible, purchase products and services that do the least damage to the environment.
- Train, educate and inform our employees about environmental issues that may affect their work.
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency and spill response programmes.

This Policy will be reviewed as a minimum annually.
