Multiplastics (Europe) Ltd is at all times committed to a Policy of ensuring that the needs of the Organisation and those of customers and other interested parties are met. By application of its operational standards, the company is able to meet its obligations to supply safe, authentic and legally compliant products, to the specified quality standards and to comply with relevant regulatory requirements.

To implement its Product Safety and Quality Management Policy, the organisation is committed to operate a Product Safety and Quality Management System which meets the requirements of ISO9001:2015, and BRCGS Packaging Materials, issue 7.

A Hazard and Risk Management System is in place to ensure that customer expected quality, authentic, legality compliant, safe products are produced and this is monitored and reviewed periodically to ensure its effectiveness and that any changes to the business processes / materials / personnel are taken into account.

The organisation recognises that a fundamental part of achieving its Quality Objectives is the education and involvement of personnel at all levels, and the provision of adequate resources in order to maintain the Product Safety and Quality Management System. The organisation is committed to the Product Safety and Quality Management System and the need for continual improvement, achieved by periodic review and assessment of its continuing suitability.

The company actively encourages any employee to speak to members of the management team should they need to raise any concerns which may affect product safety, legality, quality or authenticity. A confidential reporting system is in place should this be required.

The company will ensure it has a Product Safety and Quality Culture Plan which is in place to ensure staff involvement, good communication and effective training to ensure an improving culture of Product safety awareness amongst all employees; and will take steps to continuously improve this culture on site. The management team are committed to the wellbeing of all staff and have various processes in place to support this.

The company will ensure this Policy is reviewed as a minimum annually by the Management Team and it shall be communicated to all personnel at induction and the current version displayed on site.
